About Us

We are pleased to introduce Agrico Marketing as one of the leading Export & Import Company from the Agri Land – Mozambique, established in the year 2006. We are primarily involved as an agricultural commodity Exporter and Importer with a network of buyers in over 30 countries across Asia, Middle East, Europe, USA, Canada and Australia.

Specializing in agri products such as Peanuts, Green Moong Beans or Green Gram, Sesame Seeds, Cow Peas & Pigeon Peas we are also dealing in other types of agriculture products as per requirements.

We have vast and extensive export experience of Agro commodities from Mozambique to destination markets of Malaysia, Vietnam, Taiwan, China, Sri Lanka, Indonesia, UAE, Saudi Arabia, Singapore and U.S.A.

At Agrico, it is essential that we measure the pulse of the market and transparently communicate the mitigating factors and trends to our customers. With our experience in this field, we have developed the expertise required to fulfill the needs of our clients' over the world.

Right from procurement to delivery, we are actively involved in all the operational aspects. Thus making sure that consistent quality products are delivered to our clients.

Our Absolute Commitment Has Ensured Unparalleled Value & Success To Our Clients.

Our Values

We not only offer a wide range of agricultural products but also emphasize on professional approach and knowledge of international as well as domestic markets which helps us to establish a goodwill in the markets worldwide. Our operational methods and standards are given below:

Location : We have our affiliated warehouses close to the cultivation area, so we can easily monitor and procure the material.

Quality Control : We are procuring the material directly from the farmers only after inspected by our quality control personnel's.

Warehouse : The procured products are stored in an ideal condition in our affiliated warehouse facilities at different locations.

Pricing : Since we are directly purchasing from the farmers and storing in warehouse/ logistics department, we can offer you the products at a very reasonable prices.

We strictly focus on continuous improvement in quality and services, Timely delivery and balancing pre and post sales services through dedication, personal involvement and co-operation of all the people at every stage.

Our Quality Policy

To be a leading, prestigious and reliable brand in the world pulses, oil seeds and agriculture sector, **Agrico Marketing** sets the following criteria as its Quality & Food Safety Policy and guarantees continuous manpower training and participation in order to keep it long lasting:

Producing in healthy and hygienic conditions without compromising with human health.

Co-operating with the customers and suppliers on effective, efficient and constructive basis.

Being sensitive to customer needs and demands.

Defining and controlling every physical, chemical and microbiological danger that might affect food safety.

GLOBALG.A.P.
The Global Partnership for Good Agricultural Practice

Java Peanuts

As a leading exporter of peanuts, we produce a premium quality range of Java Peanuts widely consumed in foods industries to add the taste and aroma in regional cuisines.

Java peanuts that are packed with minerals such as potassium, manganese, iron, copper and zinc, which energizes body and prevents from diseases. With the least moistured and the least aflatoxin levels, our peanuts meet the international quality standards.

Soy Beans

We are one of the largest exporting company of soya beans in Mozambique. The beans contain significant amounts of phytic acid, dietary minerals and B vitamins.

Soy vegetable oil, used in food and industrial applications, is another product of processing the soybean crop. Traditional non-fermented food uses of soybeans include soy milk from which tofu and tofu skin are made. For human consumption, soybeans must be cooked with "wet" heat to destroy the trypsin inhibitors.
